The original and two copies of such application shall be filed with the Board, along with a self-addressed stamped envelope for return of one of the copies after the filing date and docket number have been noted by the Board. The F.E.R.C. 121 Form and Form TGP 102, 103, 107 and 108 may be submitted in lieu of the second complete copy of the application. All applications shall be fully completed as appropriate in conformance with Board rules as well as with F.E.R.C. rules, and the well for which a determination is being sought must have been classified by the Tennessee Division of Geology before such applications may be heard by the Board. Upon receipt of an application, the Board shall notify the applicant of the receipt of such application and, should the application be incomplete in any respect, indicate the nature of the incompleteness. Upon the receipt of application, such application shall be considered filed with the Board, assigned a docket number, and notice duly published, provided all other rules referred to herein have been complied with.

- (2) The date the application is received by the Board shall be considered the filing date or record, unless after a determination has become final it is determined that the application did not, in fact, qualify for the request status in the first place, in which case the Board will consider the filing date of record of a new application to be the date the disqualified application for a price determination for a particular reservoir was received by the Board. This exception will be allowed between categories as well as within a particular category, but shall only apply to those wells for which commercial sale of natural gas has occurred after the original determination was filed. Written notice shall be given to the F.E.R.C. and to the applicant for any determination for which this exception shall apply.

**Authority:** T.C.A. §§60-1-105, 60-1-202 and 60-1-204; *Natural Gas Policy Act of 1978, Public Law No. 95-621, 92 Stat. 3350 (November 9, 1978).* **Administrative History:** Original rule filed February 7, 1986; effective March 9, 1986.

The relevancy of any testimony or other evidence is subject to challenge by any party to the hearing or any member of the Board. When so interposed, such objections are acted upon by the Chairman, his ruling being subject to challenge and overturning by a majority vote of the Board.
- (e) Full opportunity is afforded all interested parties at a hearing to present evidence and to cross-examine witness.
- (f) The Board maintains data files which contain the records on each individual well in the State. Such well records consist of the following:

The Board maintains field or reservoir base maps and all wells completed in or penetrating a reservoir are identified.

A monthly activity report is published by the Board for all wells being drilled or completed in the state and a monthly production report is available giving monthly production from all producing wells in the state.

- (g) Applications for determinations will be filed and assigned a docket number upon receipt. The professional staff of the Board will then study the application and data submitted in conjunction with records of the Board as identified in 1040-8-1-.10(2)(g). Information contained in the application will be verified to the extent possible with information on file with the Board. The staff of the Board includes professional engineers, geologists, and attorneys, as well as other support staff. The application and relevant data will be considered and discussed in a joint meeting of the professional staff prior to the public hearing of the application before the Board. Requests for clarification of data or for additional data may be made, where deemed necessary by the staff. Unresolved questions may be asked of the applicant at the hearing.
- (h) The initial authority of the Board for making determination in accordance with the N.G.P.A. was established by an emergency order of the Board, which was made at a scheduled hearing under the Uniform Administrative Procedures Act. This action was properly advertised in accordance with the state law and Board rules.

After studying the application, all data submitted by the applicant, all data available in the files of the Board, and hearing any additional evidence submitted at the hearing, the staff of the Board will make a recommendation to the Board. Where there is no objection, application

may be submitted by affidavit without oral testimony. Regarding uncontested applications, the Board will hear them en masse and, where appropriate, grant the same by one order. A list of applications recommended for approval will be made available prior to the hearing so that comments or objections may be expressed when the applications are considered by the Board.

- (i) The Board will give written notice to the F.E.R.C. of any change in the procedures described in these rules.
